HPS Wall Touch Controller

Sleek Wall Touch Control Panel

HPS Wall Touch Controller

Sleek Wall Touch Control Panel

Introducing AdonisAV HPS-WTC-A4 Wall Touch Control Panel, a sleek and intuitive panel designed to streamline control and management of your conference system. With its standard box enclosure and user-friendly 4-inch touch screen, it gets seamlessly integrated into any conference room or venue, providing effortless control at your fingertips. Installation of wall touch panel is as simple as mounting an ordinary wall switch, ensuring a hassle-free setup process. Once installed, the control panel connects to the network port (RS-485) of AdonisAV Audio Controller via standard network cable, enabling seamless communication.

AdonisAV Wall touch Controller empowers users with comprehensive control functionalities, including microphone number assignment, microphone mode selection, volume control, and microphone muting. With its high-speed FPGA+Cortex-M3 core, it delivers swift and responsive performance, ensuring smooth operation and user satisfaction. Features a vibrant 4-inch screen and support for 64K colors (16-bit RGB). Whether adjusting microphone settings or monitoring conference parameter, users can easily navigate and interact with the control panel with ease.

Highlights and Features

Core Processor: High-Speed FPGA+Cortex-M3 Core
